## Profile

I am a 3rd-year Computer Engineering student with a solid background in hardware and software development. Gaining firsthand knowledge through early exposure to computers as an internet café attendant. Developed excellent customer service skills while assisting clients with technical issues. Initially aspired to be an architect but found a deep interest in computers and problem-solving. Currently seeking internship opportunities to apply my technical skills in a practical situation and continue to learn more about engineering and design.

## Experience

### Internet Cafe Costumer Service (2013-2014)

- It enhances my problem solving and communication skills by handling costumer inquiries and concerns.
- I gained a hands-on experience by troubleshooting basic computers, internet issues and learned how to manage computer networks, printers, and other devices.
- It improved my technical troubleshooting skills, customer service skills, and the ability to work under pressure.
